**IN THE PAST 7 YEARS . . .
WE'VE SUPPLIED YOU WITH**

37 Billion gallons of water

AND WITHOUT A RATE INCREASE

BUT . . . NOW WE NEED YOUR HELP

Dominguez Water Corporation has had the pleasure of serving the Dominguez-Torrance area since 1911. In over a half century of meeting the needs of our rapid growth area, we have learned the value of bringing the facts to the public.

APPLICATION FOR RATE INCREASE NECESSARY BECAUSE OF CLIMBING COSTS

Estimates for the year 1960 indicate that current rates for all types of water service will not produce sufficient revenue to cover expenses. This critical condition has come about because of rising costs without a corresponding increase in water rates since May 15, 1953. Costs of payrolls, pumping and transportation of water have increased over fifty per cent since 1953. Restrictions on our rights to pump water from the West Basin have made it necessary for us to purchase 20 per cent of our total water volume from the Metropolitan Water District at more than three times the price of producing from our own wells. Taxes, too, have increased.

REQUEST FOR NEW RATES IS A REQUEST FOR A "JUST AND REASONABLE" RETURN

For the reasons outlined, Dominguez Water Corporation faces a crisis in its operations, and is forced to make application to the California Public Utilities Commission for an increase in water rates. Adequate rates are necessary if we are to maintain the high standard of service we have always rendered to our customers.

IT'S OUR AIM TO CONTINUE TO MEET THE FUTURE WITH CUSTOMER CONFIDENCE AND EFFICIENT SERVICE
